METROPOLITAN HOTEL, CINCINNATI, O. ? Dr. W. C. Couden, Louisville, Ky.

My Dzar Sir:—Being now satisfied that my face is perfectly cured, I write to say so, and to thank you for your skilfful treatment of it. Though it has been six montha since it healed, I have forborne writing you because of the common belief that cancerous diseases cannot cured—that they can only be palliated or covered up for a time to re-appear with mere than original virulence, and I thought that I would give my case the full benefit of all that doubt. I will state that in 1663 a pimple made it appearance on the base of my nose, near the eye; it continued to increase in malignity until 1867, when I became aeriously alarmed about it. Alter submitting to the treatment of several physicians until June, 1868, without benefit but getting worse all the time—I went to Lou-Dr. W. C. Couden, Louisville, Ky.

ral physicians until June, 1868, without benefit but getting worse all the time—I went to Louisville to consult you. I had become satisfied that a speedy cure must be effected or it would soon prove fatel. By this time the cancer had extended almost to the corner of the eye, involving its nerves, and to the top of the nose, and was rapidly growing more malignant in its character. I placed myself under your treatment; and in less than lour months was cured and have so continued now six months. I believe that I am tudebted entirely to your skill for that cure, and will, as a matter of duty, recommend any one afflicted with any kind of cancerous disease to you lor treatment, believing that if cure or relief is possible you can afing that if cure or rehef is possible you can af ford it. Believe me, very traly and gratefully Yours.
